Cheshire & Warrington SPORTS PARTNERSHIP

Club & Coach Education

Cheshire and Warrington Sports Partnership

October 2006 - March 2007

Welcome to the Cheshire & Warrington Sports Partnership

Club & Coach Education Programme (October 2006 – March 2007)

In the booklet you will find a wide range of nationally recognised qualifications and courses for prospective and qualified sport coaches and officials. If you are old enough to begin thinking about taking National Governing Body awards in sports coaching or learning how to become a referee or official then contact our coach education section or speak directly to the Sports Development Officer in your Local Authority (see back page).

There are many courses scheduled between October 2006 to March 30th 2007 and contacts to many more National Governing Bodies. For this 6 month programme we are pleased to be hosting courses in the sports of Boccia and Goalball in the area of Disability and Equity and hope these (amongst all the other courses) are well received and attended.

Whatever your experience, please take a look inside these pages and we are sure there will be something for you. Courses are also being constantly added and updated so please be sure to access the Coach Education page of the Cheshire & Warrington Sports Partnership at www.cwsportspartnership.org.

Why is Coach Education important?

The coach education programme underpins the partnerships development plans to:

- Restore & strengthen School Sport.
- Create new community sports clubs and support existing clubs.
- Create strong links between Schools and Clubs.
- Offer clear pathways from foundation to excellence.

Using sport as the catalyst a multi agency approach is used to tackle issues on inclusion, health, education and training.

The Cheshire & Warrington Sports Volunteering Programme

The Cheshire & Warrington Sports Volunteering Programme is part of the Sports Volunteer North West Regional Programme and is coordinated centrally by the Volunteer Education/Skills Development Officer in partnership with a range of individuals and organisations across different sectors of Cheshire & Warrington.

Volunteers have a vital role to play in sport in this country; the contribution made by volunteers to sport each year is estimated to be worth around £1.5 billion. Central Government has now recognised the need to help sport develop its volunteers from grass roots to national level. We believe that being a volunteer in sport or leisure is a valuable and positive experience.

Most sports volunteers rarely use the term 'volunteer' to describe their activities, they see themselves as coaches, umpires, referees, team managers, club personnel or event organisers. Behind the scenes there are treasurers, committee members, planners, researchers, IT website managers, journalists and photographers. In short, there is a vast array of roles supporting and surrounding sport without which sport would not be able to function.

If you are aged between 16 and 24 years and interested in getting involved with supporting a local sports club or organisation, then please contact Amanda Shepherd at Cheshire & Warrington Sports Partnership on 01606 871812 ext 246 or email amandas@sportcheshire.org and we will match up your skills and interests to a suitable sports organisation. Alternatively, please visit our website www.cwsportspartnership.org and click on volunteers.

Long Term Athlete Development

Sports coach UK has been working in conjunction with agencies across the UK to develop resources that are planned to help the providers of sport with the implementation of Long Term Athlete Development (LTAD). Everybody, whether a sport coach, teacher, parent or player has a responsibility in ensuring the long-term athlete development of young athletes. In today's society issues such as child hood obesity and the concern for national well being are emphasising the importance of regular sport and exercise among young performers. The Long Term Athlete Development (LTAD) model, developed by Dr Istvan Balyi, focuses on maximising player development to encourage a life long commitment to sports and exercise. For too long the importance of early years' experience has been lost. New initiatives around Long Term Athlete Development (LTAD) and fundamental movement skills are starting to redress this imbalance. The following courses are all related to this exciting new concept.

An Introduction to LTAD

Enables Coaches to understand the key concepts of LTAD and what it means to them and their practice.
